

Smart Design Ideas To Make Your Small Room Look Bigger

Optimizing & making the best use of available space is the only hack to furnish a small room. Here are some simple design ideas to make your small room look bigger.

Always prefer light colored paint for your walls as it helps in creating an illusion of a larger space.

Purchase furniture items as per the available space to avoid making the room look congested & cluttered.

Use multi-functional furniture items to downsize the furniture requirement in your room.

Add mirrors and mirrored furniture items as they make the room look bigger and brighter.
