

Different Ways To Set Up Sectional Sofas

Sectional sofas help in accentuating the overall look of your living room. Here are some ways in which you can set up the sectional sofa.

1 IN THE MIDDLE

Sectional when placed in middle of the room can act as a focal point. However, make sure it does not obstruct the way.

2 SPREAD-OUT ARRANGEMENT

Create traditional room setup by separating the sectional pieces & spreading them out to give your living room a conventional look.

3 AGAINST THE WALL

In this setup you can push the sectionals against the wall to free up space in middle of the room.

4 L-SHAPED ARRANGEMENT

This setup provides ample space for foot traffic since it is fixated against a wall and some portion of it is extended in an open space.
