

How To Choose The Right Table To Match A Sectional Sofa

Sectional sofa is a perfect addition to your living room as it is both stylish and comfortable. The shape and length of the sofa plays a key role in choosing the right table.

A round or square coffee table goes perfectly with square or corner sofa. While, a rectangular or oval table compliments a L-shaped or chaise sectional.

U-shaped sectionals offer great versatility as they can be matched with a variety of tables. A square, rectangular or oval coffee table can be paired with a U-shaped sofa.

The length of the table should not exceed the length of sofa on any side. However, at the same time it should be long enough to be easily accessible to everyone.

The height of the table should be comparable to the height of sofa. It should either be few inches higher or lower than the sofa seat.
