

Tips To Choose The Right Upholstery For Your Furniture

Market these days are flooded with variety of options for upholstery fabric. There are numerous color and pattern options available to choose from.

Here are some simple tips to choose the right upholstery for your furniture:

1

Consider the three pointers: Color, Texture & Material.

2

Durable fabric in deeper shades works best for furniture in living room.

3

Neutral colored upholstery adds subtle elegance to sculptural or quirky pieces.

4

Avoid upholstery in deep tones for larger pieces as they may overshadow rest of the room.

5

Using bold colors or patterns for smaller pieces like accent chairs adds a pop of color to the room.

6

Mixing different upholstery styles like velvet, linen, leather or canvas adds texture to the space.
