

Buying A Rug For Dining Room

A carefully selected rug for dining space can accentuate overall look of the room. Following are some things to keep in mind while buying a rug for your dining room.

Size

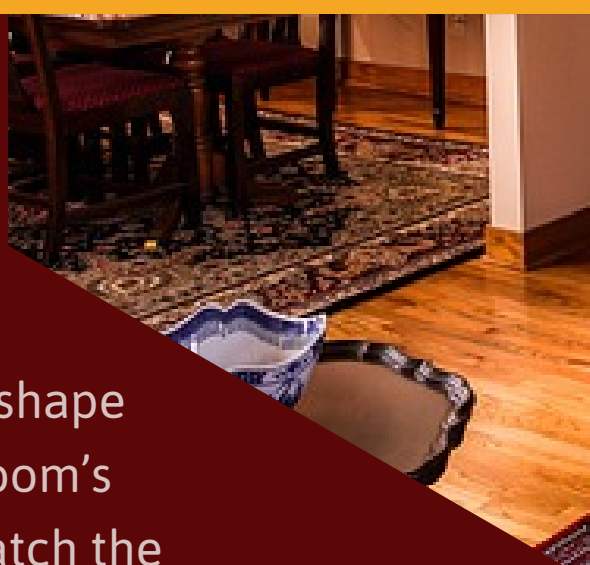

01

Make sure that the size of your rug is neither too small nor big. Ideally there should be enough space such that when a chair is pulled, its back legs are there on the rug.

Shape

02

Choose a rug whose shape complements your room's shape. Also, try to match the rug shape with the shape of dining table.

Material

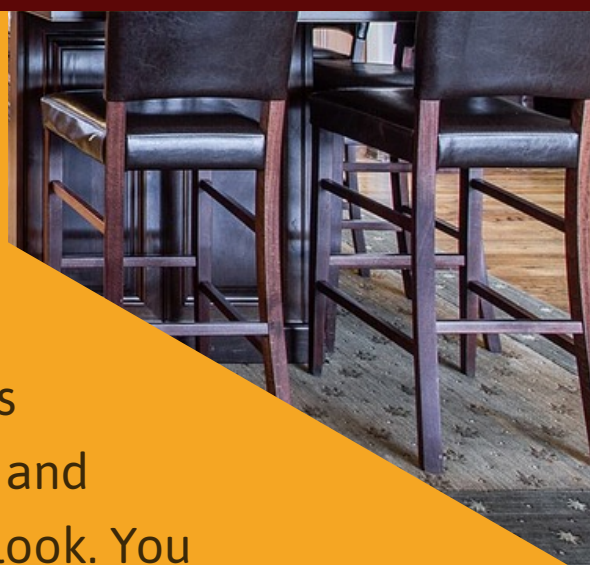

03

A dining room rug is susceptible to wear & tear, so opt for materials that are easy to clean & maintain. You can choose rugs made from natural fibers.

Color & Pattern

04

Choose a color that is appealing to the eye and matches the overall look. You can opt for dark hues as they effectively mask spills & stains.
