

Types Of Benches

Benches come in various shapes and styles. They can be used to serve a variety of purposes in different rooms within a house.

An entryway bench offers a stunning first impression. You can opt for an upholstered bench with a cushioned seat and underneath storage.

Bedroom benches offer both style and functionality. You can choose from benches made of soft velvety upholstery, wood, and tufted materials.

Benches in a dining room provide extra space and a cleaner look. They are a great option for smaller areas with limited space.

Accent benches are a perfect addition to any room that needs some extra seating. You can choose from a designer wooden bench or minimalistic designs.

You can merge practical storage with a sense of flair through a storage bench. These can have leather upholstery or wooden antique finish.
