

Types Of Lamp Lighting

Lamps are a great way of incorporating aesthetic lighting. Additionally, they are available in different types to serve different lifestyle requirements.

Table Lamps

They can be used either as task lighting or as a decorative element.

Floor Lamps

They help in putting focus on a particular spot in a room.

Wall Lamps

These lamps are used as secondary illumination sources or as a focus on a piece of art.

Desk Lamps

They are a type of task lighting commonly used for setting up home offices, reading areas, etc.
