

# Furnishing An All-White Room

An all-white room gives ample opportunities to create different decors.

Here are some tips for furnishing an all-white room:

01

Understand the decor style you want to create – traditional, boho, modern, glam, etc.

02

Start by choosing the largest furniture item of the room, for example, bed, sofa, dining table, etc. to create a focal point.

03

You can either choose the focal furniture in white color, neutral palette, or a pastel tone.

04

Choose other furniture items in matching tones of white and floral upholstery in pastel shades.

05

Experiment with different textures such as velvet, fur, faux leather, etc. to create visual interest.

06

Use lamps, frames, and wall art with metallic frames to create a luxurious style.

07

Add pop of color with rugs, throw pillows, plants, etc.
