

# Which Ceiling Light Is Right For You?

Are you looking for a ceiling light but cannot understand which one to choose? **Ashley HomeStore** offers a huge variety of ceiling lights for every room. These include pendant lights, recessed lights, LED ceiling lights and more.

Here are some tips to help you choose the right ceiling light for your room:

## Purpose

Consider the purpose of the room you intend to install it in. For example, in a bedroom, softer lights look best and in a kitchen, a brighter overhead one does the job.

Choose a light fixture that is in proportion to the height of your ceiling. Larger fixtures look great on high ceilings and vice versa.

## Ceiling Height

## Size of the Room

A large light fixture may overwhelm a small space while a small fixture may compromise the amount of light in a large room.

The ceiling light should complement the existing decor and style of your room. Check out our unique and modern collection of chandeliers and pendant lights at Ashley HomeStore.

## Style

## Energy Efficiency

Consider the impact of your light choice on the environment. Opt for LED lights as they reduce energy costs, last longer and have low heat emission.
