

# Colors To Choose For Kids Room

Designing a vibrant and playful kids' room can be an exciting task. At Ashley HomeStore, we offer a wide range of colorful kids' furniture to help you create a space that sparks your child's imagination. From calming pastels to vibrant hues, our selection ensures you will find the perfect colors to make your kid's room fun and stimulating.

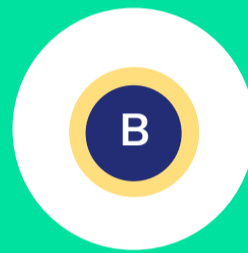

Here are some tips for choosing colors for your kids' room:

### **Soft and Soothing Colors:**

Choose pastel blues or greens to create a calming atmosphere for bedtime.

These colors promote relaxation and peacefulness.

### **Bright and Vibrant Colors:**

Energize and stimulate your child during playtime with yellows and oranges. These colors evoke enthusiasm and creativity.

**Gender-Neutral Colors:** Choose neutral grays or whites if you are designing a shared room for siblings. These colors provide a versatile backdrop for various decor themes.

**Accent Colors:** Add pops of visual interest and tie in with the overall theme of the room. Select a few vibrant colors to incorporate through accessories and decor items.

**Consider Your Child's Preferences:** Consider your child's favorite colors and interests. Involve them in the decision-making process to create a room they will love.

**Balance Bold Colors with Neutrals:** Achieve harmony and balance in the room by combining bold colors with neutral tones. This blend prevents the space from becoming too intense.
